## Stacey Belknap-Keet

Candidate for position #4

Born and raised in the village of Ayer's Cliff and a proud mother, I am deeply committed to my community and its development. With over 20 years of experience in management and executive leadership, I have the privilege of serving as CEO of Diex Recherche, one of Canada's leading clinical research organizations. For more than 6 years, I have guided the company in securing major contracts with global pharmaceutical companies, expanding our network of research sites, and consistently raising our standards of quality and compliance.

My path has also led me to serve as a municipal councillor, from 2017 to 2021, of Ayer's Cliff, where I actively contributed to community projects and sustainable initiatives. My mission goes beyond research: I am dedicated to contributing to the growth of our village by guiding its development in a way that allows us to live in harmony, while preserving our values and quality of life.

### Why do you want to represent the voters in your municipality?

Over the past four years, I have dedicated myself to my career as a CEO as well as to my family, giving my children the space to grow while finding a better balance in life.

Today, I feel more ready than ever to step forward once again. This decision comes from my deep attachment to our village and its future. I want to actively contribute to the growth of Ayer's Cliff by guiding its development in a harmonious way, so that we can preserve our quality of life and continue to live in alignment with our values.

The coming years will bring many changes and opportunities for our small village. It is crucial that these projects be well managed to protect the balance that makes our community so special.

I was raised in our village, I raised my children here, and I want to continue living here, contributing here, and growing here with you. Together, we have the opportunity to build a strong, prosperous, and harmonious future for Ayer's Cliff.

### **How would you like to improve the quality of life to voters?**

I present myself to you with the deep desire to continue helping our beautiful community grow. We have before us several major projects that will have a direct impact on our daily lives. For them to succeed, it is essential that they be guided by competent and dedicated people.

My commitment is clear: to make thoughtful decisions while considering the voice of every citizen, to work with transparency and openness, to protect the quality of life that makes our village so proud, and to put in place concrete actions for our families, our seniors, and our youth. I want each of us to feel truly at home here, today and for the years to come.

### **What are your two main priorities?**

Our village has before it several major projects that will directly shape our daily lives and the future of our community. These initiatives represent a unique opportunity to strengthen our infrastructure, stimulate our economic vitality, and enhance the exceptional environment we call home.

As a candidate, my priority is to ensure that these projects are carried out with rigor, transparency, and competence. Most importantly, I want them to truly improve the quality of life for everyone: by offering better services, creating welcoming living spaces, and promoting sustainable development that respects our shared values.

I strongly believe that the best decisions are made by listening to the voices of our citizens. That is why I commit to placing your opinion at the heart of every choice, and to maintaining an open and ongoing dialogue, so that each of you feels heard, represented, and proud to be part of this community.
