## Christian Savoie

Candidat for position #3

My name is Christian Savoie. I first discovered the village of Ayer's Cliff in the 1970s and 1980s when my parents moved there. I returned in 2007, 18 years ago, as a permanent resident. I had the opportunity to serve as a councilor and president of the CCU from 2013 to 2017.

Professionally, I have been in the food distribution business for 45 years. I have held various positions at the provincial and national levels, including management positions, and have been employed for 36 years by one of the largest distributors in North America.

Always attentive to people's needs, I have developed my network and, over the years, socialized and negotiated to find accessible solutions that everyone can agree on.

My hobbies, music and camping, allow me to travel throughout the province and confirm that our village is undoubtedly one of its jewels.

### Why do you want to represent the voters in your municipality?

I am returning to run for office after a few years away in order to reiterate my commitment to citizens, to serve them, listen to them, and above all, to build a better future with them while respecting their choices.

The involvement of each and every one of us remains a cornerstone that we must reflect on in order to grow together.

### How would you like to improve the quality of life to voters?

Improving quality of life requires respecting the financial and environmental resources of a municipality such as Ayer's Cliff, which in the coming years will be critical in showcasing our village and its citizens of all ages!

We need to generate enthusiasm for small, medium, and large businesses to come and set up shop here and grow at the same pace as other municipalities.

Creating wealth is not just a matter of money; it is about the contribution of wealth in terms of people, their experience, their knowledge, and their involvement in our community.

### **What are your two main priorities?**

1. We must act according to our means, which means that financial management must be based on a respectful budgetary balance. All citizens must be able to identify with the decisions of a balanced and fair council.
2. The heritage identity of our living space is essential in order to foster and increase our pride as fully involved citizens.
